ATTENTION TO HOGS IN FALL

Animals Are Not as Resistant to Disease as in Spring—Water Supply Is of Importance.

(By E. R. SPENCE)
Hogs are not as resistant to disease in the fall as they are in the spring when getting an abundance of green forage, and having access to a wide range. It is necessary, therefore, to give them more attention and better care to offset seasonal conditions and danger from new corn.

Do not feed in the same lot, or on the same side of ground, day after day. This contaminates the feeding places, and also attracts crows, pigeons, and sparrows which may have been feeding with a cholera infected herd. Throw the feed out in a different spot each day, thus giving the pigs a clean "plate" from which to eat.

The water supply is of much importance to the health of the hogs at this time of year. Old mud wallows are never good, but are not so bad if the hogs can have pure water to drink, but if forced to bathe and drink in the same "tub" serious trouble can be expected at any time. See that they have an abundance of pure water to drink, situated near the wallow holes or feeding places. Pure water will aid materially in keeping the herd cholera free.

USEFUL DIP VAT FOR SHEEP

Device Shown in Illustration Is Convenient Piece of Equipment for Any Farmer.

A dipping vat similar to the one illustrated is a convenient piece of equipment for any farmer to have, since it can be used for swine and other stock. It should be at least 8 feet long, 22 inches wide and 4 feet deep. It may be made of concrete, wood or galvanized iron. The vat should be placed on a hole 2 feet deep.

Handy Dipping Vat.

so that the operators may handle the sheep conveniently. At the time of dipping it is desirable to have a chute of permanent or temporary construction. This provides a means of placing the sheep in the vat one at a time. At the outgoing end the vat has an angle of 45 degrees provided with cleats, or notches, which give the sheep a foothold when leaving the vat. A sloping platform, also provided with cleats, should be constructed at the end, from which the sheep leave the vat; this allows the solution to drain off the animals and return to the vat.

MAKING PROFIT FROM SWINE

Proper Care and Feed Are Necessary—Provide Comfortable Quarters and Lots of Sunshine.

In order to make a profit from pigs it is necessary to give them the proper care and feed. They should be provided with clean, comfortable quarters, exercise, and plenty of sunshine. The sow should be given special care at farrowing time. She should be fed lightly for a few days after farrowing, and the amount of feed gradually increased as the young pigs develop.

The ration for the sow at this time should be one which will produce a heavy flow of milk. A good ration for this purpose is one composed of corn, shorts, bran, a small amount of tankage, and a good quality of alfalfa fed from a rack. Bran may make up 10 per cent of the ration, as it has a beneficial effect on the digestive system and tends to increase the milk production.

PROPER PASTURE FOR SHEEP

Attention Must Be Given to Parasites That Prey on Woolly Creatures—Move After Two Seasons.

Where sheep are kept as one of the major businesses of the farm, particular attention must be paid to the pasture upon which they graze, since there seem to be a number of internal and external parasites that prey upon the woolly creatures. After sheep have pastured upon one piece of land two seasons it is high time that they were moved to the next pasture.

TROUBLE WITH LITTLE PIGS

Watch Closely for Sore Mouths—Sometimes Advisable to Clip Tusks—Use Disinfectant.

The little pigs should be watched closely for sore mouths, especially in large litters. It is sometimes advisable to clip the tusks from the pigs, thus preventing them from scratching each other. In case of sore mouth, wash the part frequently with a disinfectant.

Washington, Dec. 5.—The execution of Private Frank Cadue of the infantry for the outrage and murder of a 7-year-old girl in France on Nov. 5 has been approved by the war department. Cadue was hanged after sentence by a military court martial.

The war department considers that military law has been complied with in every respect.

This is the first crime requiring capital punishment since the Americans went over seas. Hanging is regarded as the punishment in keeping with a disgraceful crime. The honor of shooting is supposed to be given to all but rapists, spies and deserters.

Insubordinate Spirit

Believing they deserved higher ratings, A. W. Osborne, formerly a foreman at the Bucyrus plant, and B. C. Helm, former postoffice employee, have resigned the commissions of second lieutenants, which they both gained at the close of the second officers' training camp at Fort Benjamin Harrison. They declared several members of their training company also resigned.—Evansville Courier.

Thirteen convicts overpowered two guards and escaped from the Joliet penitentiary.

Oscar Cooley and his wife, Mamie Cooley, were arrested yesterday by order of County Judge Knight on a charge of running a disorderly house and maintaining a common nuisance in the suburb where the murder of the farmer from Tennessee occurred Monday night. Their trial has not been held yet.

Corns Peel Off!

Ever Peel a Banana Skin? That's It!

"I should worry about these corns—I just put some 'Gels-It' on." Corns used to peeler the world into a frenzy, enduring pain, digging, slicing toes, tinkering with plasters

"Gels-It" Puts Your Feet in Clover

and tape, trying to fix a corn so it wouldn't hurt. But now no one in the world "should worry" because the moment you put "Gels-It" on, it means the end of the corn. There is nothing in the world like "Gels-It"—nothing as sure and certain—nothing that you can count on to take off a corn or callus every time, and without danger. The corn never grows that "Gels-It" will not get. It never irritates the flesh, never makes your toes sore. Just two drops of "Gels-It" and presto! the corn-pain vanishes. Shortly you can peel the corn right off with your finger and there you are—corn-free and happy with the toes as smooth and corn-free as your palm. Never happened before, did it? Guess not.

Get a bottle of "Gels-It" today from any drug store, you need pay no more than 25c, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Hopkinsville and recommended as the world's best corn remedy by L. L. ELGIN.

MARRIAGES

Hubbard-Holland.

Mrs. Laurie Thurmond Holland, of Gracely, and Mr. Luther H. Hubbard, of Blytheville, Ark., were married in Nashville Monday, at the Hermitage Hotel, springing a complete surprise on their friends. They left at once for Blytheville. Mr. Hubbard formerly lived here and is a son of the late Luther Hubbard and is a prosperous young merchant. The bride is the daughter of Mr. and Mrs. John C. Thurmond and enjoyed the distinction of being one of Christian county's prettiest young women.

Garrott-Lowry.

Frank Garrott and Miss Katherine Lowry, of Pembroke, were married in Clarksville Tuesday of last week. An attempt was made to keep the wedding a secret, but the facts came out a few days ago and the young couple admitted the truth. Mr. Garrott is a son of Mr. Jeff J. Garrott, and his bride, who has recently held a position in the postoffice at Pembroke, is quite a pretty and accomplished young lady. One of the groom's brothers was married about a month ago and still another will be married in the near future.
